Preface

California is proud to be the home of more Native American residents than any other state. The State of California recognizes and reaffirms the inherent right of California Native American Tribes (Tribes) to exercise sovereign authority over their members and territory.

In 2011 Governor Edmund G. Brown Jr. issued Executive Order B-10-11 requiring all State agencies to encourage communication and consultation with Tribes. Accordingly, the California State Transportation Agency (CalSTA or Agency) hereby adopts this Tribal Consultation Policy (Consultation Policy), which memorializes this agency's commitment to strengthening and sustaining relationships between Tribes and the State. For purposes of Executive Order B-10-11 and this Consultation Policy, the terms "Tribe," "California Indian Tribe", and "tribal" include all Federally Recognized Tribes and other California Native Americans.

Background: California State Transportation Agency (CalSTA)

Governor Brown proposed the Government Reorganization Plan (GRP2) in 2012 to streamline and reorganize agencies and departments of the Executive Branch of State movement. The GRP2, which was approved by the Legislature, placed key transportation functions under one agency, the California State Transportation Agency (CalSTA). The GRP2 went into effect on July 1, 2013, at which time an Agency Secretary, Brian P. Kelly, was appointed to oversee the new CalSTA and to coordinate policies and programs of the transportation-related entities within the jurisdiction of CalSTA.

CalSTA is comprised of the following departments, boards, offices and commissions (constituent agencies):

- Board of Pilot Commissioners (BOPC)
- California Department of Transportation (Caltrans)
- California Highway Patrol (CHP)
- California Transportation Commission (CTC)
- Department of Motor Vehicles (DMV)
- High-Speed Rail Authority (HSRA)
- New Motor Vehicle Board (NMVB)
- Office of Traffic Safety (OTS)

CalSTA Consultation Policy

CalSTA endorses government-to-government communication with Tribes with a strong emphasis on fostering mutual respect among all parties. This Consultation Policy embodies an ongoing process for establishing productive and long-lasting relationships with Tribes and is supported by the Agency Secretary.

The CalSTA Consultation Policy broadly defines provisions for enhancing the consultation processes of CalSTA and its several constituent agencies with Tribes. This Consultation Policy shall complement, not supersede, any existing laws, rules, statutes or regulations that guide consultation processes with Tribes. The CalSTA Consul-
The National Indian Justice Center is located in Santa Rosa, California. NIJC’s building also houses the administrative offices of the California Indian Museum and Cultural Center, the Intertribal Court of California and the Regional Tribal Justice Center. Construction is currently underway for the California Indian Museum and Cultural Center, which will include a storytelling venue, Native plants garden, California Indian foods, a small Native village, audio-visual displays that highlight California Indian history and the contributions of California Indians, as well as Edward Curtis prints and traveling exhibits. If you are in the area, please come visit and tour the facilities.

Congratulations to Big John Smith

Transportation Director for the Eastern Shoshone and Northern Arapaho tribes’ Joint Business Council on the Wind River Indian Reservation! Big John was selected as one of eleven local heroes to be a White House Transportation Champion of Change.

For the past 25 years, “Big John Smith” has served as the Transportation Director for the Eastern Shoshone and Northern Arapaho tribes’ Joint Business Council on the Wind River Indian Reservation in central Wyoming. Big John is also the Rocky Mountain Regional Representative on the Tribal Transportation Committee, and the Executive Director of the Intertribal Transportation Association. Big John has succeeded in improving the reservation’s transportation infrastructure (highways and bridges), has led the effort to dramatically cut alcohol-involved crashes and fatalities on the Wind River Reservation. He has worked with tribal leaders to toughen tribal laws to enhance seat belt compliance, and has led the effort to use positive messaging to educate drivers of all ages about the dangers of drinking and driving. His love for the people of Wind River has been instrumental in building relationships with tribal, local, county, state and federal partners to save lives.

FHWA Releases New EDC2 Alternative Intersections Videos

By: Jeffrey B. Shaw, P.E., FHWA Office of Safety

FHWA is pleased to announce that four alternative intersection designs are completed and posted to the FHWA YouTube channel. Each video runs approximately 7 minutes in length and provides basic information about the safety and operational benefits of each intersection. Experts from around the country provide informative commentary, and high-quality footage from locations throughout the United States is used to illustrate the concepts.

There is one video for each of the following four intersection types:

- Diverging Diamond Interchanges at http://youtu.be/eLAvwl3EtN4
- Median U-Turn Intersections at http://youtu.be/6shW_O_Xegl
- Displaced Left-Turn Intersections at http://youtu.be/3wlvoa9fuB0
- Restricted Crossing U-Turn Intersections at http://youtu.be/BLwl01NCp9I

Through the Every Day Counts 2 initiative, the FHWA is encouraging agencies and communities to routinely consider these innovative designs both for retrofits of existing intersections and interchanges and when constructing new facilities. For more information, visit http://safety.fhwa.dot.gov and http://www.fhwa.dot.gov/edc2012/geometrics.cfm

American Red Cross 30th Annual Disaster Preparedness Academy

Anaheim California Convention Center, October 22, 2014. The American Red Cross makes preparedness easy by offering the Disaster Preparedness Academy, a one day event focused on teaching organizations and businesses how to prepare for, respond to and recover from disasters. Registration begins August 2014

For more information contact: Monica Ruzich (714) 481-5329 or Monica.Ruzich@redcross.org

Patent Office Cancels Redskins' Trademark

In its 2-1 ruling issued on June 18, the Trademark Trial and Appeal Board, an independent tribunal within the USPTO, wrote it was charged with determining only whether the mark was offensive to the people it referenced, instead of to the entire population. Five Native Americans, representing four tribes, brought the case against the league.

"Petitioners have found a preponderance of evidence that a substantial amount of Native Americans found the term Redskins to be disparaging when used in connection with professional football," the ruling said. "While this may reveal differing opinions with the community, it does not negate the opinions of those who find it disparaging."

The ruling does not force the NFL or Redskins owner Daniel Snyder to change the name, but trademarks, registered between 1967 and 1990, will no longer be protected under federal law if the NFL and the Redskins lose an appeal to the U.S. District Court

tation Policy shall not be construed to displace existing policies of its constituent agencies.

The CalSTA Consultation Policy was developed with direct input from Tribes. Five guiding principles were identified: collaboration, communication, education, process, and timely notice. The guiding principles are to be executed by CalSTA and employees of constituent agencies in a good-faith manner to facilitate effective consultation practices and promote cooperation and efficiencies relative to tribal consultation. These guidelines are to be acknowledged by CalSTA and its constituent agencies when drafting, updating or implementing consultation policies pursuant to Executive Order 9-10-11.

Consultation Policy Guidelines

Collaboration.

CalSTA is committed to the principle that interaction with Tribes shall be regarded as a "partnership" of mutual respect whereby the Agency and its constituent agencies strive to ensure a sound and productive relationship with tribes through the development and maintenance of a meaningful dialogue.

Consultation is a process whereby parties meet and confer to exchange information, compromise, and reach understandings that, when possible, may result in the adoption of mutually-beneficial policies and sustainable outcomes. CalSTA and its constituent agencies will work together to identify and coordinate policy when there are issues that may pertain to or impact Tribes, disseminate public documents and notices, seek opportunities for collaboration, and maintain an ongoing dialogue with Tribes.

Communication.

Open and respectful communication with tribal representatives is essential. It is strongly recommended that communication between CalSTA constituent agencies take place early and often, particularly if a project has tribal implications; occur on a regular basis; continue throughout changes in leadership; be inclusive and transparent; provide timely notice (see below) and documentation in a manner that provides an adequate review and response period for the parties involved; and be conducted in a manner that is consistently executed with the utmost level of respect, decorum and diplomacy. When a matter involves confidential or culturally sensitive information, CalSTA and its constituent agencies will work with tribal representatives to address the sensitivity of such information to the fullest extent possible. All parties in the process should promote respect, shared responsibility, and an open and free exchange of information.

The Agency Secretary and CalSTA heads of constituent agencies shall meet with tribal leaders (elected and appointed officials of tribes and their designees) no less than once a year to collegially: 1) review the CalSTA Consultation Policy; 2) discuss transportation and other issues relating to CalSTA constituent agencies; 3) exchange information regarding state and tribal leaders' priorities, projects, events, and/or other matters of mutual interest; 4) continue personal and professional relationships between state and tribal leaders.

Native American Liaisons.

The Secretary will designate a Deputy within the Agency to act as a Native American Liaison for the purpose of policy coordination between CalSTA, constituent agencies and tribes. The CalSTA Liaison will ensure that each of the CalSTA constituent agencies whose work may directly impact Native American issues shall designate a Department Liaison to work directly with the Agency and tribes. The CalSTA Liaison will be responsible for coordinating outreach, communication and other activities affiliated with department liaisons and Native American interests. The name and contact information for CalSTA and its constituent agency liaisons will be published on the CalSTA website. Moreover, CalSTA liaisons will participate in CalSTA Listening Sessions with tribes, attend at least the first quarterly Caltrans Native American Advisory Committee (NAAC) of each calendar year, and be available for other Agency-related and NAAC meetings upon request.

Education.

The CalSTA Native American Liaison will encourage the Native American Liaisons of its constituent agencies to seek ongoing training designed to improve each constituent agencies' capacity for promoting collaboration with Tribes. Education and training should emphasize communication, tribal sovereignty, the unique distinctions of Tribes, and the skills

---

1The Native American Advisory Committee (NAAC) is a chartered body of elected persons who ensure that transportation executives receive direct advice from the Native American community on issues pertaining to all modes of transportation in California. This advisory committee contributes to the Tribal Governments' ability to take advantage of transportation opportunities and to participate in planning, developing and implementing transportation projects and services. The NAAC offers a chance to further government-to-government working relationships. The NAAC holds a minimum of four meetings each calendar year throughout the state.
and tools necessary for collaborative engagement. Leadership of the constituent agencies shall endeavor to instill an awareness of tribal culture and respect within their organizations.

Process.

The core missions of CalSTA and its constituent agencies are extensive. Each constituent agency is responsible for implementing a wide range of transportation, licensing and safety related core functions that are subject to scores of federal and state laws, regulations, guidelines and restrictions. Within such mandates every attempt will be made to interrelate with Tribes in a manner that is timely and respectful and which clearly identifies internal processes and timeline expectations for the parties involved. Consultation at the field, project management, and executive staff level is strongly encouraged so that information is available early in the planning process. Consultation may be initiated by a constituent agency or Tribe.

Timely Notice.

This Consultation Policy recognizes that Tribes are located in diverse and sometimes remote regions throughout the state, thereby necessitating the need for clear and adequate notice/outreach prior to consultation or meetings that may require travel by members and/or leaders of Tribes. Contact with Tribes should be initiated as early as possible, preferably with no less than 45 days notice, to provide adequate time for Tribes to respond, particularly on substantive matters, and most importantly, to respect tribal protocol and cultural patterns that require consideration, deliberations, and consensus.

This Consultation Policy respects the sovereignty and self-determination of Tribes and shall not be deemed to waive any rights, including treaty rights, immunities, or jurisdiction on the part of CalSTA or Tribes. This Consultation Policy does not diminish any rights or protections afforded Tribes under state or federal law. Through this Consultation Policy, the intent of CalSTA is to strengthen its ability to successfully resolve issues of mutual concern collectively with Tribes. While the relationship described by this policy provides increased ability to solve problems, it likely will not result in a resolution of all issues. Therefore, inherent in this Consultation Policy is the right of CalSTA and Tribes to elevate an issue of importance to any decision-making authority of another entity, including, where appropriate, the highest levels of state and tribal government. This Consultation Policy is intended to govern the process with which CalSTA and its constituent agencies will engage in consultation with Tribes.

Effective Date

The CalSTA Consultation Policy shall be effective on the date executed by the Agency Secretary and shall be posted on the CalSTA website. It shall be subject to periodic review to ensure provisions are current and consistent with state policy and enacted legislation. Pursuant to Executive Order B-10-11 dated September 19, 2011, the California State Transportation Agency hereby adopts this Tribal Consultation Policy.

Notice to All Interested Parties

Adoption of Tribal Consultation Policy

The California State Transportation Agency (CalSTA) adopted its Tribal Consultation Policy effective June 2014. The document can be found at http://www.calsta.ca.gov. A hard copy may be obtained from CalSTA via fax or U.S. Mail upon request.

Secretary Kelly has established an open timeline for consideration of further revisions to the CalSTA Tribal Consultation Policy. Interested parties are encouraged to continue ongoing communication with CalSTA regarding the Tribal Consultation Policy and/or other matters of mutual concern.

Open Comment Period

The CalSTA Tribal Consultation Policy is subject to periodic review to ensure provisions are current. Ongoing comments addressing the CalSTA Tribal Consultation Policy, as adopted June 2014, may be submitted via electronic or U.S. Mail. Submissions must include the name, address and telephone number of the person providing the comments.

For the first time in almost 60 years, the TRB Annual Meeting will be moving to a new venue. The TRB 94th Annual Meeting will be held at the Walter E. Washington Convention Center in Washington, D.C., January 11–15, 2015. This article, the second in a series on the move, provides a brief overview of expected changes. The first article appeared in the January–February 2014 issue of TR News and presented the reasons behind the change of venue.

What Will Be Different?

The location—of course! The Convention Center is located between 7th and 9th Streets and N Street and Mount Vernon Place, NW, in downtown Washington, D.C. This is approximately 2.5 miles southeast of the former TRB Annual Meeting site on Connecticut Avenue. It is across from the Carnegie Library at Mount Vernon Square; the library will become the new site of the International Spy Museum in 2017.

The Convention Center is Metro accessible, served by the Yellow and Green lines at the Mount Vernon Square–7th Street–Convention Center stop. One mile north of the National Mall, the Convention Center offers easy access to the Smithsonian Museums, the Washington Monument, the Lincoln Memorial, and the U.S. Capitol.

The new Marriott Marquis Washington, D.C., hotel is directly across the street from the Convention Center, and the buildings are connected by a short underground walkway. The Marquis, scheduled to open in May 2014, will be the primary venue for TRB committee meetings. Workshops, sessions, exhibits, posters, and most of the large events will take place in the Convention Center. The larger rooms in both facilities should reduce the level of crowding and congestion for all events, and the state-of-the-art exhibit hall will allow for more, larger, and different types of exhibits.

The majority of hotels that will be included in the TRB room block will have Metro access or will be within walking distance to the Convention Center. For this reason, the TRB shuttle bus will be discontinued. TRB will provide free wireless Internet (wi-fi) access to all attendees in public areas, meeting rooms, and sessions at the Convention Center and in the Marquis, as well as in the exhibit hall. Because of the wi-fi access and the availability of all papers on the Annual Meeting Online website, the flash drive containing this same information will be discontinued.

The new venue and surrounding area offer more food and beverage options than the former meeting location. Both facilities meet modern standards for sustainability and for accessibility according to the Americans with Disabilities Act of 1990.

What Will Be the Same

The Annual Meeting program will continue its high standards of quality and content. The structure of the program and meeting schedule will not change significantly—at least during the new venue’s first year. The theme for the TRB 94th Annual Meeting is “Corridors to the Future: Transportation and Technology.”

Costs to attendees will not be affected by the move. Annual Meeting registration fees will remain essentially unchanged, adjusted only for annual inflation. Most hotel guest rooms will be available at the federal government per diem rate. Meeting registration and hotel reservations will open in early September; attendees are advised to book through the official TRB housing bureau. Meeting exhibitors and attendees should be wary of contacts from unofficial brokers who may claim to have lower rates and better hotels; these may be scams.1

1http://tinyurl.com/MarquisDC
2http://supportassociations.com
Opportunities for formal and informal networking will be plentiful. With the entire meeting in one contiguous venue, opportunities for collaboration across transportation modes and disciplines will be enhanced; TRB will take maximum advantage of the layouts and technologies of the new facilities to foster collaboration. Wi-fi availability will enable real-time, virtual networking to supplement face-to-face opportunities.

The 2015 TRB Annual Meeting will continue many of the traditions that have evolved over the years and will open opportunities to establish new traditions.

---

**Active Transportation on the Rise in California**
From TR News, March—April 2014, News Briefs

The percentage of California residents biking, walking, or using public transportation for daily activities has more than doubled since 2000, according to the most recent California Household Travel Survey (CHTS). Automobile trips still are the most common, with approximately 75 percent of all trips taken as either passenger or driver in a car, van, or truck; this share has decreased from 86 percent in 2000. Walking trips increased form 8.4 percent of all trips in 2000 to 16.6 percent in 2012 to 2012, public transportation trips increased from 2.2 percent to 4.4 percent, and bicycle trips increased from 0.8 percent to 1.5 percent.

The average person took 3.6 trips per day, according to CHTS. The average trip duration was approximately 18 minutes, with the average work trip lasting 21.3 minutes and the average school trip 14.6 minutes. The average route distance was 6.8 miles.

The largest single regional household travel survey in the country, CHTS compiled data from more than 42,500 households via interviews, mail surveys, wearable and in-vehicle GPS units, onboard diagnostic sensors, and other data collection methods.

For more information visit, www.dot.ca.gov/hq/tsip/otfa/chts_travelsurvey.html.

ANNOUNCEMENTS

Shuster Statement on the Highway and Transportation Funding Act of 2014

Washington, DC - Transportation and Infrastructure Committee Chairman Bill Shuster (R-PA) released the following statement on H.R. 5021, the Highway and Transportation Funding Act of 2014, a bill introduced in the House by Ways and Means Chairman Dave Camp (R-MI), and cosponsored by Shuster:

“We have an immediate, critical need to address the solvency of the Highway Trust Fund and extend the current surface transportation law. This bill does that in a responsible way with policies that have all previously received strong bipartisan and bicameral support. If Congress fails to act, thousands of transportation projects and hundreds of thousands of jobs across the country will be at risk.

“By funding surface transportation programs through May 2015, this legislation provides certainty and stability for states, while also providing Congress time to continue working on a long-term funding solution and a surface transportation reauthorization bill. A shorter extension would guarantee a manufactured crisis in December when some might be inclined to play politics with these issues or use them as vehicles for unrelated policies that should be subject to the full and open debate they deserve.

“This bill in no way precludes Congress from continuing to work on addressing a long-term funding solution, and a long-term reauthorization bill remains a top priority for the Transportation Committee. However, this legislation is the responsible solution at this time, ensures that we don’t play politics with these programs, and provides for making continued improvements to our surface transportation system.”

The National Work Zone Safety Information Clearinghouse
Traffic Management & Work Zone Safety Power Workshop at International Bridge Conference

Roundabouts
Roundabouts are circular intersections. Roundabouts reduce traffic conflicts (for example, left turns) that are frequent causes of crashes at traditional intersections. Unlike a traffic circle or a rotary, a roundabout's incoming traffic yields to the circulating traffic.
For more information visit the website at: http://safety.fhwa.dot.gov/intersection/roundabouts/

Roundabout Outreach and Education Toolbox
This Toolbox is designed to be a highly useable, online reference that connects transportation professionals with outreach resources from across the country to help them obtain public support for roundabouts.
To utilize the tool box go to: http://safety.fhwa.dot.gov/intersection/roundabouts/roundabouttoolbox/

Roadway Worker Safety Website
The U.S. Federal Highway Administration’s Office of Operations has launched a new page on its Work Zone Safety website designed to be a central source of data and links to information and technical resources on roadway worker safety.
To visit the website go to: http://www.ops.fhwa.dot.gov/wz/workersafety/index.htm

Training, Tools, Guidance and Countermeasures for Locals
Local and Rural team is continuously looking for new ways to meet the needs of local and rural road owners and operators. Insuring that tools meet the needs of the users and that they have the resources and training they need to effectively use the tools is a critical part of the solution.
To visit the website go to: http://safety.fhwa.dot.gov/local_rural/training/

Local & Rural Road (LRR) Safety Peer-to-Peer (P2P) Program
Open to public highway agencies seeking to adequately address safety problems on their local and rural road network.
SAFETY RESOURCES (Continued)

The workshop was packed with timely information related to night work, federal regulations, worker protection and the latest strategies in temporary traffic control. To view the workshop go to:
http://www.workzonesafety.org/news_events/wz_conferences/power_workshop2010_PA

Crash Modifications Clearinghouse (CFM)
The CMF Clearinghouse is funded by the U.S. DOT-FHWA and maintained by the University of North Carolina Highway Safety Research Center. A CMF is an estimate of the change in crashes expected after implementation of a countermeasure. To visit the website go to:
http://www.cmfclearinghouse.org/

Impact Teen Driver
Impact Teen Drivers was organized for the purpose of providing awareness and education to teenagers, their parents, and community members about all facets of responsible driving, with the goal of reducing the number of injuries and deaths suffered by teen drivers as a result of distracted driving and poor decision making. To view the website go to:

California DOT (Caltrans)
Enhanced National Highway System
As per the new federal authorization MAP-21, starting October 1, 2012 the existing National Highway System (NHS) has been expanded to include all Principal Arterials (i.e. Functional Classifications 1, 2 and 3) to the new Enhanced NHS.
To visit the website go to:
http://dot.ca.gov/hq/tsip/hseb/map21nhs.html

WEBSITE APPLICATIONS—APPS

Heat Safety Tool App
U.S. Department of Labor (DOL), Occupational Safety and Health Administration (OSHA)
The App allows workers and supervisors to calculate the heat index for their worksite.
To download the app go to:
https://www.osha.gov/SLTC/heatillness/heat_index/heat_app.html

Transportation Construction Advocate App
American Road & Transportation Builders Association (ARTBA)
Available for both Android and Apple devices.
To download the app go to:
Google Play or iTunes.

Asphalt Calculator+ App
This iPhone/iPod Touch app will calculate the amount of cubic yards needed for a given job. It will also calculate hot mix tonnage. Polyclef Software.
To download the app go to:
Google Play or iTunes.

TRANSPORTATION PROGRAMS AND DEVELOPMENT
TRANSPORTATION PROGRAMS AND DEVELOPMENT (Continued)

FHWA Resource Center
The Mission to advance transportation technologies and solutions through training, technical assistance, technology deployment, and partnerships.
For more information go to: http://www.fhwa.dot.gov/resourcecenter/

The FHWA has developed an extensive list of resources that focus specifically on the latest culvert technology. To view this list go to: http://www.scribd.com/doc/63745094/Culvert-Technologies -List

Pavement Construction and Safety Training on Demand New free Web-based courses sponsored by the Federal Highway Administration (FHWA)
To view the courses go to: http://www.fhwa.dot.gov/publications/ focus/13jul/13jul02.cfm

National Highway Institute (NHI)
NHI Training In Action 2014-Magazine Improving the Performance of Transportation Through Training.
To View the magazine go to: http://www.nhi.fhwa.dot.gov/downloads/other/ training_in_action_2014.pdf

National Highway Institute (NHI)
The NIH in partnership with the Transportation Curriculum Development Council has developed a number of FREE web-based trainings that can be completed in one, two, or three hours. Whether you are working in the field, have limited time for training, or just want to expand your skill set on a specific topic these web-based courses provide an ideal way to enhance your knowledge on key areas.

- Introduction to NEPA and Transportation Decision-making (WBT) course 142052
- Geotechnical Aspects of Pavements Course 132040
- Principles of Evacuation Planning Tutorial Course 133107
- TCCC Earthworks Series: Excavation Course 132092
- TCCC Earthworks Series: Fill Placement Course 132093
- Air Quality: Transportation Conformity Web Based
- Clear Air Act Overview course142068
- SIP and TCM Requirements and Policies course 142069
- SIP Development Process course 142070
- Transportation Conformity course 142071
To view the entire list of available courses go to: http://www.nhi.fhwa.dot.gov/default.aspx

National Highway Training Resource (NTTR)
The National Transportation Training Resource (NTTR) is an online database of information about learning resources for the public-sector transportation workforce. The NTTR is a tool for training managers and frontline transportation professionals.
To visit the website go to: http://www.nttr.dot.gov/

FHWA Wildlife Vehicle Collision Reduction Study Training Course
A national study was conducted on the causes and impacts of wildlife vehicle collisions (WVCs). This study also provides recommendations and solutions for reducing these collisions.
To view the course go to: www.environment.fhwa.dot.gov/WVCtraining/index.asp

National Cooperative Highway Research Program (NCHRP)
Report 667 Model Curriculum for Highway Safety Core Competencies presents course materials, including the instructor’s guide and student workbook, for a fundamental highway safety training course. The course is designed to address the core competencies highway safety practitioners should have or acquire. An accompanying CD-ROM includes a brochure and short Microsoft PowerPoint presentation for marketing the training course.
To view the report go to: http://onlinepubs.trb.org/onlinepubs/nchrp/ nchrp_rpt_667.pdf

Paul S. Sarbanes Transit in Parks Technical Assistance Center (TRIPTAC)
The TRIPTAC is available to all Federal Land Management Agencies (FLMAs), not only those applying for or receiving funds from the Transit in Parks program. State, local or tribal governments who are working in collaboration with an FLMA to expand public lands access are also welcome to use TRIPTAC services to obtain alternative
transportation information and assistance. To view available training courses go to: http://www.triptac.org/

University of California, Berkeley, Institute of Transportation Studies Technology Transfer Program To visit the website go to: http://www.techtransfer.berkeley.edu/

U.S. Small Business Administration (SBA) Online Courses for Starting Your Business Several free online courses are offered by the SBA to help prospective and existing entrepreneurs understand the basics about writing a business plan. For more information go to: http://www.sba.gov/content/online-courses-starting-your-business

Community Transportation Association of America (CTAA) Passenger Service and Safety PASS Basic Training Program The PASS Basic program consists of 6 modules and includes comprehensive training on the assistance that drivers should be providing to passengers with special need. For more information go to: http://training.ctaa.org/

Community Transportation Safety and Security Accreditation (CTSSA) The program is designed to promote the safety and security of the customers of community and public transportation systems and also to promote the safety and security of the women and men who deliver these services and provide mobility for the riding public every day. For more information go to: http://web1.ctaa.org/webmodules/webarticles/anmviewer.asp?a=32&z=36

Minnesota Local Technical assistance Program (LTAP) Gravel Road Maintenance and Design (Online) This course helps supervisory personnel and operators better understand the materials, techniques, and equipment needed for maintaining gravel roads. To enroll in the course go to: http://www.mnltap.umn.edu/training/topic/maintenance/gravel/online.html

Curbing Transit Employee Distracted Driving The 30-minute course, was developed by FTA in conjunction with the Florida Department of Transportation It’s an excellent tool to educate, inform, and increase awareness among all transit workers about the dangers and challenges associated with distracted driving.

For more information go to: http://www.fta.dot.gov/newsroom/12910_14467.html

Work-Zone Safety Tutorial Minnesota LTAP has launched a new online free tutorial that offers a convenient opportunity for new, seasonal, or temporary staff to learn about the fundamentals of work-zone safety and the basic concepts of the work-zone area before arriving at the job site. There is no cost to take the tutorial, and registration is not required. To view the tutorial go to: http://www.mnltap.umn.edu/training/web/workzone/

PUBLICATIONS

The following are some of the most recent publications received and entered into the National Indian Justice Center (NIJC) data base. The NIJC web site has the complete list of publications going back several years. VIDEOS AND DVDS

Environmental Justice in Transportation for California Tribes Video Workbook
Produced by the National Indian Justice Center.
Available at: 707-579-5507 or,
http://nijc.org/publications.html

Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users.
The Forest Service, Bureau of Land Management and Federal Highway Administration have jointly developed training videos to show how the various programs authorized within SAFETEA-LU can benefit public lands and their neighboring communities.
The training video can be found at: http://www.fs.fed.us/eng/safetea-lu
FHWA LTAP/TTAP Clearinghouse
Operators Pre-Start Motor Grading Inspection
Promotes motor grader safety and productivity for county and city road agencies.

-RAND-
Roadway Safety + Training Program Version 9 is a standard method of providing worker awareness training for road workers. The RSP+ download includes interactive Macro-media modules, Trainee Booklets, Toolbox Pamphlets, printable screen guides, and an Instructor Manual. Most are provided in 3 languages.

Download program from www.workzonesafety.org
To obtain copies of the videos contact Sarah Crane at 202-289-4434, or e-mail scrane@artba.org

FHWA Office of Safety Design
Two informational videos on DVD.
FHWA-SA-08-007. Median Barriers—A Solution to Cross-Median crashes.
FHWA-SA-07-024. The previously released video, Rumble Strips—A Sound Investment.
Order from FHWA Report Center – publication number Report.center@fhwa.dot.gov.

FHWA Office of Safety
2009 Road Safety Audit (RSA) Video
FHWA has created a new video on Road Safety Audits (RSAs). The new RSA video focuses on the benefits of using a multidisciplinary approach to improve safety. For more information or to view the video go to: http://safety.fhwa.dot.gov/rsa/video2009/

FHWA Office of Safety
Modern Roundabouts: A Safer Choice (FHWA-SA-10-023)
The video explains the many benefits of roundabout intersections and is intended primarily for decision makers in state and local transportation agencies to overcome the common barriers and reasons for not considering roundabouts as intersection alternatives. It is presented in a non-technical manner and can be used at public meetings for proposed roundabout projects.
For more information go to: http://safety.fhwa.dot.gov/intersection/roundabouts/

FHWA Works: Building Bridges Faster and Better to Save You Time and Money
A YouTube video also on Face Book and Twitter

SHRP 2 Naturalistic Driving Study Featured on Transportation TV
American Association of State Highway and Transportation Officials (AASHTO)
The Transportation TV News Update regularly tracks trans-
CALIFORNIA

NOTE: many of the listed transportation programs are dependant on the implementation of MAP-21.

CALIFORNIA DEPARTMENT OF TRANSPORTATION (CALTRANS)

The State-Legislated Safe Routes to School Program
July 6, 2012, MAP-21, the Moving Ahead for Progress in the 21st Century Act was signed into law. Under MAP-21, SRTS was consolidated into the Transportation Alternatives Program (TAP), but is eligible for Surface Transportation Program (STP) and Highway Safety Improvement Program (HSIP) funds.

Safe Routes to School: Caltrans has released the call for applications for Active Transportation Program grants. The Active Transportation Program is the new source for federal and state funding for Safe Routes to School projects and other walking and bicycling projects.
FY 2014 Cycle 1 is closed. Access the Application and Application Instructions on Caltrans website: http://www.dot.ca.gov/hq/LocalPrograms/atp/index.html
Lots of helpful resources for preparing a strong ATP application are available on our SRTS-ATP funding page.

Memorandum of Understanding (MOU)
The California Department of Transportation (Caltrans), in consultation with the Governor’s Office of Small Business Advocate, have entered into a Memorandum of Understanding (MOU) with the U.S. Small Business Administration (SBA), to offer a technical assistance surety bond guarantee program to promote increased small business participation in this initiative provides a viable means to advance the unimpeded participation of all willing, ready, and able construction contractors and subcontractors, professional architectural and engineering firms, suppliers and truckers, without regard to race, ethnicity, gender, or physical disability to participate in the State’s Contracting Program.
For more information contact a Small Business Development Center in your area, or call Linda Madden 919-324-8384; e-mail Linda_Madden@dot.ca.gov

California Department of Resources Recycling and Recovery (CalRecycle)
CalRecycle offers a variety of grant funding opportunities to assist public and private entities in safely and effectively managing California’s waste stream.

Ordering Information
Printed copies of our in-house publications are available on a first-come, first served basis. Priority is given to Tribal Transportation Personnel. PDF versions of most of our publications are available on our website: http://www.nijc.org/taap_resources.html

All our videos, publications and CD-ROMs in our lending library are loaned for a four-week period. Two titles may be borrowed at a time.

To order or borrow materials, please send a request to: barry@nijc.org or, nijc@aol.com or Fax a request to: 707-579-9019.

To view past issues of publications, videos and development programs, please visit our website library at: http://nijc.org/datasheets/taap/TTAP_Resourceslist.asp
FUNDING (Continued)

Application materials forthcoming:

- Local Enforcement Agency Grants
- Waste Tire Cleanup grants. FY 2015/16 will tentatively be available winter 2014
- Rubberized Pavement (TRP) Grant Program- FY 2014/15 solicitation are tentatively scheduled to be available Fall 2014.
- Tire-Derived Aggregate (TDA) Grant Program. FY 2014/15 solicitation are tentatively scheduled to be available in Fall 2014.
- Tire-Derived Product Grant Program- FY 2014/15 solicitation are tentatively scheduled to be available in Fall 2014.

Additional grant information and list of active grants can be found at: http://www.calrecycle.ca.gov/Grants/default.htm

Highway Safety Improvement Program (HSIP)
It is never too early for local agencies to analyze their roadway network to 1) identify their highest crash locations and corridors, 2) consider effective and efficient countermeasures to improve the safety of these locations/corridors, and 3) identify projects that have the highest Benefit-to-Cost ratios.
Caltrans Cycle 7 to be determined.
For more information go to: http://www.dot.ca.gov/hq/LocalPrograms/HSIP/apply_now.htm

NEVADA

Nevada Department of Transportation (NDOT)

Transportation Alternatives Program (TAP)
The Nevada TAP provides federal transportation funds for projects that improve non-motorized mobility, historic preservation, scenic accessibility, safe routes to school (SRTS) and environmental/vegetation management.
FY 2014 funding to be determined.
For more information go to: http://www.nevadadot.com/tap/

Nevada Transportation Enhancement Program
The Nevada Department of Transportation (NDOT) and the Federal Highway Administration (FHWA) share your interest in these projects and others that enhance the transportation experience in your area and make our communities more livable. The TE program was developed to fund projects that go beyond where typical transportation projects usually stop.
For more information go to: http://www.nevadadot.com/Projects_and_Programs/Landscape_and_Aesthetics/Landscape__Aesthetics_Program.aspx

FEDERAL

Transportation Alternatives Program (TAP)
- Safe Routes to School Program.
- National Scenic Byways

The Moving Ahead for Progress in the 21st Century Act (MAP-21) authorized the Transportation Alternatives Program (TAP) to provide funding for programs and projects defined as transportation alternatives, including on- and off-road pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and enhanced mobility, community improvement activities, and environmental mitigation; recreational trail projects; safe routes to school projects; and projects for planning, designing, or constructing boulevards and other roadways largely in the right-of-way of former divided highways. The TAP replaced the funding from pre-MAP-21 programs including the Transportation Enhancement Activities, Recreational Trails Program.

Department of Housing and Urban Development (HUD)
Indian Housing Block Grant Program (IHBG)
Funds appropriated by Congress for the Indian Housing Block Grant Program (IHBG) are made available to eligible grant recipients through a formula. Regulations governing the formula can be found at 24 CFR Part 1000, Subpart D. On April 20, 2007, the Native American Housing Assistance and Self Determination Final Rule was published revising the IHBG Formula.
In brief, the formula has two components; Need and Formula Current Assisted Stock. The Need component considers population, income, and housing conditions. The Formula Current Assisted Stock component reflects housing developed under the United States Housing Act (the predecessor of the IHBG program) which is owned and/or operated by the IHBG recipient and provides funds for ongoing operation of the housing.
An Indian tribe may challenge the Need portion of the IHBG formula provided the data are gathered, evaluated, and presented in a manner that is fair and equitable for all participating tribes. Tribes have until March 30 of each year to submit challenges to their Needs data in consideration for the upcoming fiscal year.
For more information go to:

Federal Transit Administration

Public Transportation On Indian Reservations (FTA 5311)
Federally recognize tribes may use the funding for capital, operating, planning, and administrative expenses for public transit projects that meet the growing needs of rural tribal communities. Examples of eligible activities include: capital projects; operating costs of equipment and facilities for use in public transportation; and the acquisition of public transportation services, including service agreements with private providers of public transportation services.

For the program information go to:

Section 5309 Bus and Bus Facilities -Ladders of Opportunity Initiative
“Direct Recipients” within the meaning of FTA’s Section 5307 Urbanized Area Formula program, States, or Indian Tribes are eligible to submit proposals for this initiative. Except for projects proposed by Indian Tribes, proposals for funding eligible projects in rural (nonurbanized) areas must be submitted as part of a consolidated State proposal. States and Direct Recipients may also submit consolidated proposals for projects in urbanized areas. Proposals shall contain projects to be implemented by the Recipient or its subrecipients. Eligible subrecipients include public agencies, private nonprofit organizations, and private providers engaged in public transportation.
Deadline to apply: August 4, 2014
